FROM THE DIRECTOR'S DESK

Dear Friends,

It gives me immense pleasure to present to you all Centre for Integrated Development's Annual Report of 2017-2018. This was a very special and significant year for us as we celebrated our silver anniversary. The **25th year** of working hand in hand with the community at a grassroots level and dedicated commitment towards the upliftment of under privileged and vulnerable sections of the society. Staying true to our mission and objectives, we successfully executed several programmes spanning across 14 districts in the northern region of Madhya Pradesh.

While the Annual Report spells out all the initiatives we undertook this year, I would like to share with you some of the highlights achieved by us in the year 2017-2018.

We successfully have completed all the deliverables proposed under the projects that we executed this year. Our spectrum of work spanned from working at the grassroots to mainstreaming child labor into institutionalized education system to creating awareness amongst men and women from unorganized sectors about their rights and how they can avail their social security benefits, from running the Childline helpline to working towards reducing malnutrition and anemia in some of the districts in Madhya Pradesh, from inclusive development of the disabled to capacitating the Front Line Workers to work effectively.

For the success of the above, I would like to congratulate and thank the entire staff of CID for

their unmatched zeal, enthusiasm, passion and hard work in achieving the goal meted under the projects they worked for. A sincere and heartfelt thanks to all the others who have been a part of research our journey, our board, volunteers and the communities we work with. We would also like to mention that our efforts would not have translated into effective action without the support of our funding agencies.

We are proud of our achievements of this year. We are immensely optimistic about reaching out to more beneficiaries in the coming time. But, there is a long journey that lies ahead of us in achieving our vision. As they say, "there are miles to go before I sleep, miles to go before I sleep".

Dr. Vijay Gupta
Director
Centre for Integrated Development

ISSUE BASED INTERVENTION

CID works on an array of issues and has a tailor made strategy to tackle each issue in an effective, significant and sustainable manner. The issues are as mentioned below;

**CHILD
RIGHTS**

**ADOLESCENTS
EMPOWERMENT
AND
DEVELOPMENT**

LIVELIHOODS

**DEVELOPMENT
OF
PWD**

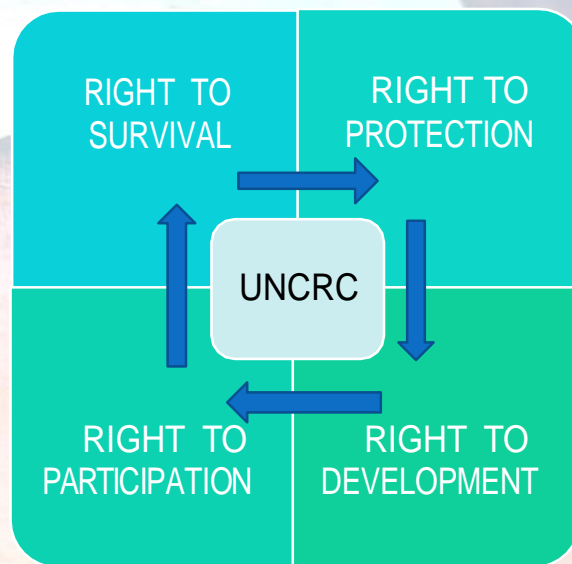

**MALNUTRITION,
ANEMIA, HEALTH,
HYGIENE AND
SANITATION**

**WOMEN
EMPOWERMENT**

1. OUR UNDERSTANDING AND WORK ON CHILD RIGHTS

According to the United Nations Convention on the Rights of the Child (UNCRC), there are broad classifications of Child Rights. These four categories cover all aspects of political, social, economic and cultural rights of every child.

CID has a comprehensive approach to deal with issues related to child rights. Our endeavor, through all our programmes is to cover all aspects of child rights for the wholesome development of a child. We see ourselves as one of the very few organizations in the country working on almost all aspects of child rights. Below we have explained what the categories given by UNCRC spell out and how CID is conforming to them through the programmes its running in various districts of Madhya Pradesh.

1. RIGHT TO SURVIVAL

CID'S INTERVENTION:

CID works with the pregnant mothers at the grassroots level through the Front Line Workers (FLWs) such as Aanganwadi workers, ANMs and ASHA workers. We are continually striving towards building the capacities of the FLWs by the way of knowledge building and frequent trainings. The FLWs are trained to identify malnutrition amongst the expectant mothers in their respective areas of work. Nutritional Rehabilitation, timely vaccinations,

timely distribution of Iron tablets from the district to village are some of the things CID ensures are happening as per the requirement.

1. Awareness about illegal termination of pregnancy is created in our project areas through awareness generation programmes

2. RIGHT TO PROTECTION

CID'S INTERVENTION:

- a) CID focuses on eliminating the practice of child labor by facilitating their educational, mental, physical and social development. The children

we work with are mostly into carpet weaving, rag picking and stone crushing.

- b) Implementing a scheme rolled out by the central government scheme launched for the children under which children are withdrawn from hazardous occupations and then put into special schools in order to get mainstreamed into formal schooling system. These special schools provide non formal/ bridge education, skilled/vocational training, mid-day meals, stipend @ rupees 450/month and health care facilities.
- c) **Childline** is the country's first toll free tele helpline for street children in distress. It operates in 366 cities/districts and 34 states/Union Territories, and functions through a network of 700 organizations across India. This year a total of 761 cases were handled by Childline, Gwalior. The nature of cases registered varied from missing children, shelter requirements, child marriage, restoration, child beggary, medical, emotional support and guidance, etc.

3. RIGHT TO PARTICIPATION

CID's INTERVENTION:

- a) Bal Panchayats (children's parliament) is an idea to bring the children together to strengthen their voice and leadership, to provide a podium where they can reach the adult duty bearer and change-agents in order to prompt their attention towards issues which affect children directly or indirectly. The motive

behind forming and facilitating Bal panchayat is to promote the right of participation so that children can speak the unspoken and their unheard voices may be heard. CID is successfully facilitating 15 Bal Panchayats.

- b) The students in our educational centres are educated about their rights and corresponding duties.
- c) A number of calls are attended by our Childline helpline staff. Counselling is provided to children and if the need be to their parents/family/guardians on issues related to child marriage, eve teasing, domestic violence , sexual violence , willingness to study more but family not being supportive, etc.

RIGHT TO DEVELOPMENT

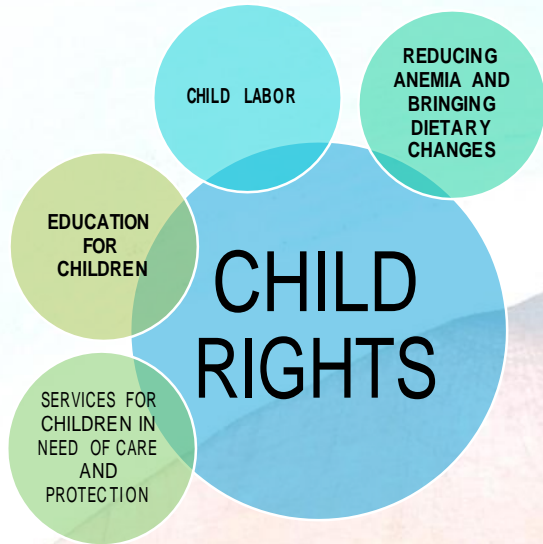

CID's INTERVENTION:

Maintaining development for all, CID makes sure that Bal panchayats also include membership of Child With Special Needs.

- a) For the mental development of the children, it is imperative for them to be enrolled in a formal education system. This aspect is a major deliverable under many projects of CID.
- b) For children who are employed as Child Labor, Non-Formal Education (NFE) is provided until class 4, post that most of the children are mainstreamed in regular schools by the CID staff.

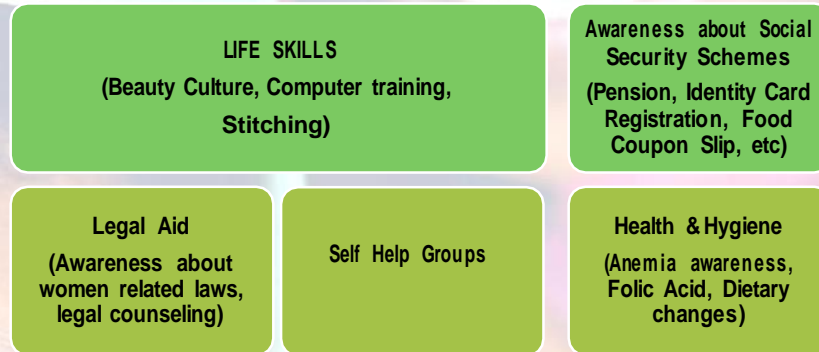

2. ISSUE BASED INTERVENTION

WOMEN EMPOWERMENT

3. ACHIEVEMENTS UNDER VARIOUS PROJECTS IN 2017-2018

3150
CHILDREN
WERE
REACHED OUT
TO IN 2017-18

52 CHILDREN WERE PROVIDED MEDICAL ASSISTANCE

128 CHILDREN WERE PROVIDED SHELTER

34 CHILDREN WERE REUNITED WITH PARENTS

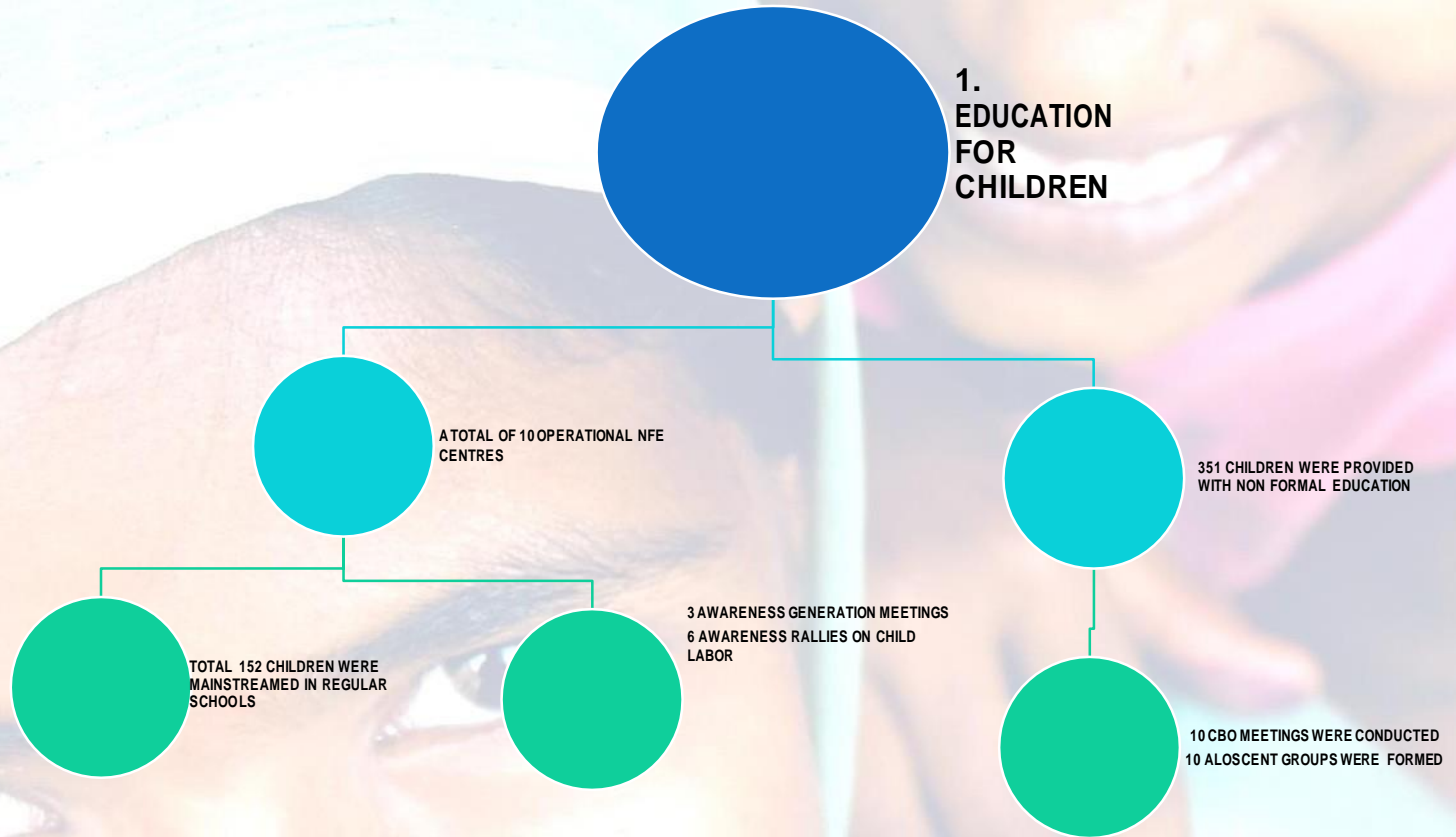

356 WERE RESCUED

116 WERE PROVIDED WITH EMOTIONAL SUPPORT & COUNSELLING

59 ORIENTATION PROGRAMS WERE ORGANIZED IN SCHOOLS

ENROLLED 60 STUDENTS IN REGULAR SCHOOLS

ORGANIZED CHIDLIN SE DOSTI PROGRAM AT DISTRICT LEVEL

4. WOMEN EMPOWERMENT

- PROVIDED FOLIC ACID TO 2057 PREGNANT WOMEN
- 20147 MOTHERS OF CHILDREN BELOW 2 YEARS OF AGE WERE EDUCATED ABOUT MALNUTRITION
- 1466 MOTHERS OF MALNOURISHED CHILDREN WERE EDUCATED

HEALTH AND
HYGIENE/MATERNAL
NUTRITION
PROGRAMMES

SOCIAL SECURITY
SCHEMES AND LEGAL
AWARENESS

- 1200 WOMEN WERE PROVIDED WITH INFORMATION ABOUT VARIOUS SOCIAL SECURITY SCHEMES
- 30 WOMEN WERE PROVIDED WITH LEGAL AID TRAININGS

SELF HELP GROUPS

VOCATIONAL
TRAININGS

- 57 SELF HELP GROUPS WERE CREATED

- 80 WOMEN WERE TRAINED IN BEAUTY PARLOUR / COMPUTER/STITCHING CLASSES

270 VILLAGE HEALTH AND NUTRITION DAYS WERE MONITORED IN 2017-18

5. INVOLVEMENT WITH FIELD LEVEL WORKERS (ASHA, ANM, AANGANWADI WORKERS, ASHA SAHYOGI)

TARGETS ACHIEVED BY WORKING WITH THE FIELD LEVEL WORKERS

2385 Anganwadi centres were visited to provide **supportive supervision** by accessing available services of ICDS and health departments, **231 monitoring visits** were made in nutrition rehabilitation centres to check the quality of services offered, **43** government health facilities monitored for their preparedness to combat malaria in May 2017, Participated in 1983 block level meetings and met block officials to close identified field level gaps, **4104 households**, **2057 pregnant women**, **2047 mothers of children below 2 years of age**, **1466 mothers of severely malnourished children** were provided counseling as per their requirement, , our team trained **17855 AWWs and 12830 ASHA workers**, At district/block level meetings of supervisory cadre our regional coordinators imparted knowledge and monitoring skills in **393 AWW Supervisors and 666 ASHA Sahyoginis**.

Under the chairmanship of **Sub-Divisional Magistrates**, we have conducted **68 block level orientations** organized by Department of Women and Child Development, We facilitated workshops on food processing at district level. The workshops were been about creating master trainers to train Aanganwadi workers on food processing and preserving for future use

Under the **Nutrition International** supported programme we assessed the knoweldge of **293 FLWs (Asha, ANM and Aanganwadi workers)** on Vitamin A Supplemntation and IFA supplemntation programme. The assessment report is submitted to the State government (MP) so that they can further desgn training capsules to strenthen the capacities of the FLWs.

Under the **CBM project**, we work with **58** Aanganwadi workers to capacitate them in early identification of children with special needs.

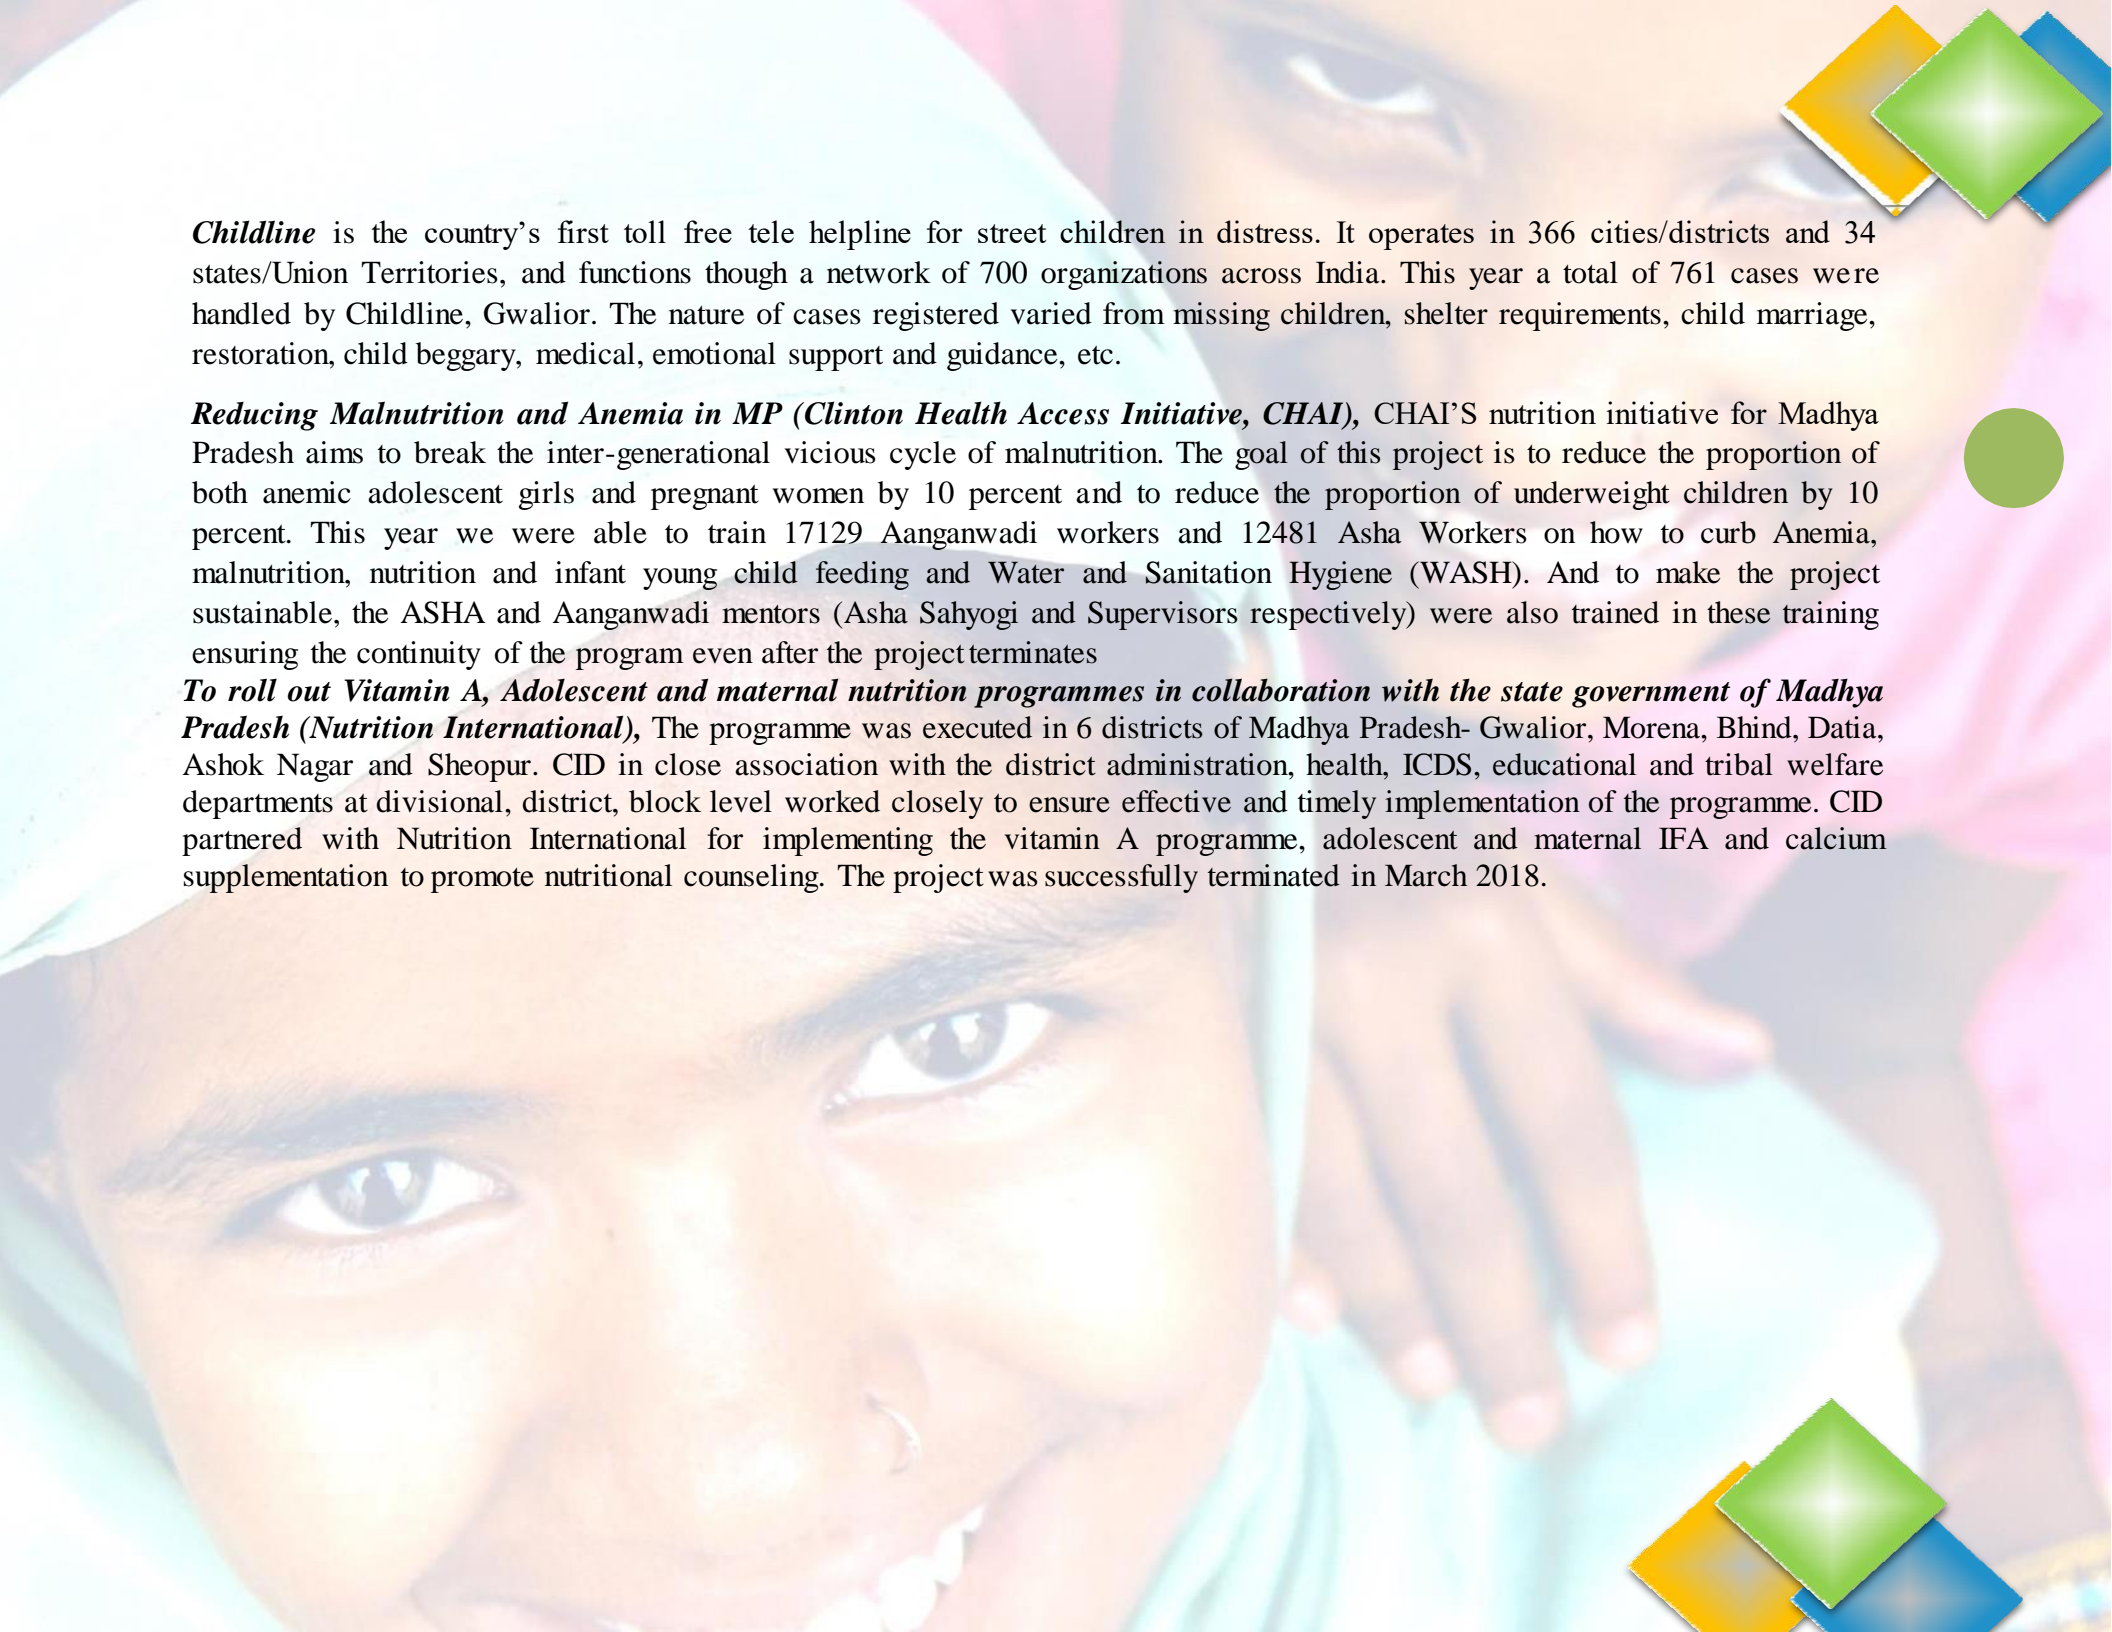

OUR PROJECTS AT A GLANCE

Multi Sectoral Approach to Eradicate Child Labor in Gwalior (MSAECG) Project is running in 9 slum areas in Gwalior. This project focuses on eliminating the practice of child labor by facilitating their educational, mental, physical and social development. The children we work with are mostly into carpet weaving, rag picking and stone crushing. This year we successfully mainstreamed 127 children in government schools. Another deliverable achieved under this project is to improve the livelihood of the Self Help Group members through skill development and inter loaning.

National Child Labor Project (NCLP) is a central government scheme launched for the children under this project are withdrawn from hazardous occupations and then put into special schools in order to get mainstreamed into formal schooling system. These special schools in order to enable them to get mainstreamed into formal schooling system. These special schools provide non formal/ bridge education, skilled/vocational training, mid-day meals, stipend @ rupees 450/month and health care facilities. This year we were able to mainstream 21 children into class five, out of which there were 11 boys and 10 girls. These children were withdrawn from labor activities like carpet weaving and carpentry. We also conducted six rallies in different parts of the city on generating mass awareness about prohibition of child labor.

People Dependent on Informal Economy (EC-PAI) is a project supported by the European Commission and Action Aid-India to support people dependent on informal economy such as such as construction workers, carpet weavers, beedi rollers, domestic women workers and street vendors. Under this project, information about various social security schemes is given to the beneficiaries, which has made them independent and confident to realize their rights and seek it from the concerned agency. This initiative has made the beneficiary lot self-sustainable when it comes to accessing their rights.

SAMARTH – Community Based Inclusive Development- Persons with Disabilities and their family have equal access to health, education, economic, social, political and entitlements through comprehensive community based rehabilitation and development programme. CID is working in two directions to ensure accessibility of persons with disability and their family members. Firstly CID generated awareness among community and persons with disability about their rights, entitlements and government services. CID focused on capacity building of DPO leaders, ISHG members and other community members so they can become capable to avail their rights by their own. On other hand CID sensitized service provider and office bearers on issues pertaining to Persons with disability and their community and try to build up coordination and networking. These efforts brought positive results, this year Health service provider recognized medical treatment needs of 233 community people (120 persons with disability) for availing medical services. 168 persons with disability improved their mobility and communication after receiving required assistive devices. After availing medical care 936 community members (454 persons with disability) are now able to live qualitative life with their community . Parents of Children Special Needs sensitized regarding importance of education in Children life later on 51 Children with special need (28 boys + 23 girls) got admission in schools and have accessed to education at their village school. Through project efforts 71 persons with disability and 79 community are now have regular and adequate income. DPOs leaders made efforts to solve issues of persons with disability and other community members. For this they submitted 114 applications at public hearing at collectorate office of Gwalior.

Childline is the country's first toll free tele helpline for street children in distress. It operates in 366 cities/districts and 34 states/Union Territories, and functions through a network of 700 organizations across India. This year a total of 761 cases were handled by Childline, Gwalior. The nature of cases registered varied from missing children, shelter requirements, child marriage, restoration, child beggary, medical, emotional support and guidance, etc.

Reducing Malnutrition and Anemia in MP (Clinton Health Access Initiative, CHAI), CHAI'S nutrition initiative for Madhya Pradesh aims to break the inter-generational vicious cycle of malnutrition. The goal of this project is to reduce the proportion of both anemic adolescent girls and pregnant women by 10 percent and to reduce the proportion of underweight children by 10 percent. This year we were able to train 17129 Aanganwadi workers and 12481 Asha Workers on how to curb Anemia, malnutrition, nutrition and infant young child feeding and Water and Sanitation Hygiene (WASH). And to make the project sustainable, the ASHA and Aanganwadi mentors (Asha Sahyogi and Supervisors respectively) were also trained in these training ensuring the continuity of the program even after the project terminates

To roll out Vitamin A, Adolescent and maternal nutrition programmes in collaboration with the state government of Madhya Pradesh (Nutrition International), The programme was executed in 6 districts of Madhya Pradesh- Gwalior, Morena, Bhind, Datia, Ashok Nagar and Sheopur. CID in close association with the district administration, health, ICDS, educational and tribal welfare departments at divisional, district, block level worked closely to ensure effective and timely implementation of the programme. CID partnered with Nutrition International for implementing the vitamin A programme, adolescent and maternal IFA and calcium supplementation to promote nutritional counseling. The project was successfully terminated in March 2018.

6. PARTNERSHIPS

We extend our heartfelt gratitude to all our partners, funders for their generosity and commitment towards the various issues we are working towards. The following are the organizations, institutions that provided financial support to us in the year 2017-2018
