Message from Chairman Umesh Vashishtha

Dear Readers,

FY23 has yet again been a happening year for The Centre for Integrated Development (CID)!

Like every year, CID has helped large number of people through its various projects, events, activities and support, touching several hundred lives of Gwalior, Maharashtra. I'm immensely proud of the various critical projects that CID has taken forward this year with the purpose of bringing about social changes at grass root level.

The Centre for Integrated Development was founded in 1992 with the goal of encouraging and supporting underprivileged people. Over the years with the same vision and ethos, the organization has reshaped itself significantly dedicating itself towards the bigger purposes of sustainable goals like gender equality, skill education, women empowerment, climate change etc. Through the various collaborative and grant projects, wide range of developmental activities has been spearheaded amongst the locality w.r.t education, child labour, health, community empowerment, environment, disability, and Sahariya primitive tribes. I am delighted to announce that CID has completed more than 30 years of service towards societal upliftment. Throughout more than 5 million individuals have been touched by CID and have benefited directly or indirectly over the years. I would like to congratulate and thank the whole CID team for their relentless efforts, passion and hard work in attaining the goals of last financial year. Thank you to all who have contributed to the success of our journey, including our board members, volunteers, and the communities we serve. I also want to extend my gratitude towards our Partners without whom our CID Team efforts would not have achieved sustainable development of the areas that we serve.

Our team has come up herewith with the annual report FY23 for your valuable comments and suggestions.

Happy Reading!

Message from Chief Functionary Dr Vijay Gupta

Dear Readers,

It is an honour for me to submit this annual report of the Centre for Integrated Development (www.cidindia.org) for the fiscal year FY23 ending March 31, 2023, on behalf of the Centre for Integrated Development.

Post pandemic year, CID team has continued its good work for the community of Gwalior. Challenges were galore, yet CID took them as opportunities to come out further stronger and united, touching more individuals and beneficiaries at grass root level w.r.t awareness, livelihood generation, human rights etc. Several activities were undertaken multisectoral projects and this report would give you a glimpse of our work and accomplishments. We remain grateful to many of our partners; including Terre des Hommes Suisse, Christoffel Blinden Mission (CBM), ChildLine India, Jivodaya Foundation, SGS, and many other individual donors, volunteers, and interns, who continue to support us.

We are in the mission for a sustainable development in the society through our work. Our relentless and passionate involvement to bring about societal changes is the need of the hour.

I hope you would like the Annual Report 2023 presented here.

Looking forward to your comments and suggestions for making our endeavour towards a better world successful!

The Centre for Integrated Development (CID) is the brainchild of a group of socially committed philanthropists who came together in 1992 to make a small but important effort that could make a difference in the lives of society's marginalized and excluded people. CID began its operations in Madhya Pradesh's northern region on social issues like backwardness, starving deaths, feudalism, and malpractices, all of which contribute to the state's underdevelopment. In the midst of such poor conditions, CID appeared as a ray of optimism. CID continues to work in rural areas of the region to voice the concerns of the most vulnerable members of society. CID has worked on numerous disadvantaged groups of society throughout the span of its 30-year journey, including health, women, children, PWDs, and tribal communities. Multi-dimensional development and promotion of child rights and education for children and abolition of child labour, community health, community development, rural development, gender equality, equity, and poverty reduction through livelihoods and skill development are just a few of our core areas. In Madhya Pradesh, CID works on crucial issues such as hunger, anaemia, pneumonia, vitamin deficiency, family planning and sexual reproductive health.

CID is working for the development and welfare of the society on various issues like

- Child Rights, Child Protection, Child Education
- Women Empowerment
- Gender Equality and Equity
- Anaemia, Malnutrition, Maternal and Child Health, TB, Micronutrient Deficiency
- Environment protection and conservation
- Poverty Alleviation and Rural Development
- Livelihood Development, Skill Training Program
- Environment Protection and Conservation
- Adolescent & Youth Health, Life Skill Education & Development

SAMARTH – Community Based Inclusive Development

Funded By: CBM

Overall Objective

To facilitate inclusive and resilient communities that provide equal access and opportunities to all people with disabilities.

Specific Objective

To increase the capacity and confidence of individual persons with disabilities and their families to better engage in family and community life.

Result 1

- **1184 community members** including women, men, girls, and boys with all impairments and family members having equitable access to health and educational services
- Individual development plan was made and implemented for **704 persons with disabilities**. Persons with disabilities started receiving rehabilitation services through the project intervention. As compared to baseline the rehabilitation services were almost negligible for persons with disabilities.
- **423** boys and girls across all impairments including girls and boys without disabilities having access to education. The project team sensitized school management to include the needs of children with disabilities in school development plan and focus on re-enrolment of school dropouts.

Result 2

- Women and men across all impairments, family members, and other community members having access to sustainable and climate resilient livelihoods.
- **467 persons with disabilities and 452 persons without disabilities** underwent training on income generation activities and their average monthly income increased to INR 7,313.00 per household.
- Livelihood basket assessment was conducted for **1255 members** with and without disabilities. Post assessment **1196 persons** with and without disabilities underwent training on goat breeding/ rearing, poultry and vegetable production. **1044 persons** with and without disabilities received training on non-farm activities.
- Based on the assessment results **314 persons** and their family members were linked to MGNREGA.
- For enhanced sustainability **335 women and men** across all impairments, family members and other community members were linked to schemes and programs under the Agriculture, Horticulture, Dairy, Animal husbandry department

Result 3

- Women and men across all impairments, family and other community members having access to financial assistance through Self Help Groups
- Total Membership of SHG = **1452** including **279 persons with disabilities**.

- 
- A woman in a yellow patterned sari is looking down at a document. The document has some text and a small map or diagram. The background is slightly blurred.
- The project facilitated the formation **Sashakt Aajivika Goat Farmer Producer Company Ltd** with **462 shareholders**. The FPO was linked to NABARD under Central Secretariat Scheme for additional three years grant.

Result 4

- DPOs and ISHG took a leading role in inclusive community development
- The OPDs are facilitating information on employment opportunities for persons with disabilities, thereby creating employment opportunities for youth with disabilities. Regular functioning of OPD paved way for inclusion of persons with disabilities in Anganwadi centers, petrol pumps, schools etc. OPD also facilitated enrollment of children with disabilities to promote inclusive education. Inclusive groups have been entrusted with the work of mid-day meals.
- Inclusive self-help groups are facilitating financial linkages for small and marginal households of persons with and without disabilities.

Result 5

- Project activities are being timely implemented and are regularly monitored
- Project management committee (PMC) effectively and efficiently planned, implemented and monitored all the project activities in sync with the project objectives and goals.

Result 6

- People with disabilities and marginalized communities have access to hygiene kits and medical facilities during COVID-19 (2.0)
- Considering the spikes in the cases of Covid-19 500 hygiene kits were distributed through the project support and 893 persons with disabilities and family members supported access to vaccination.

Success Story 1

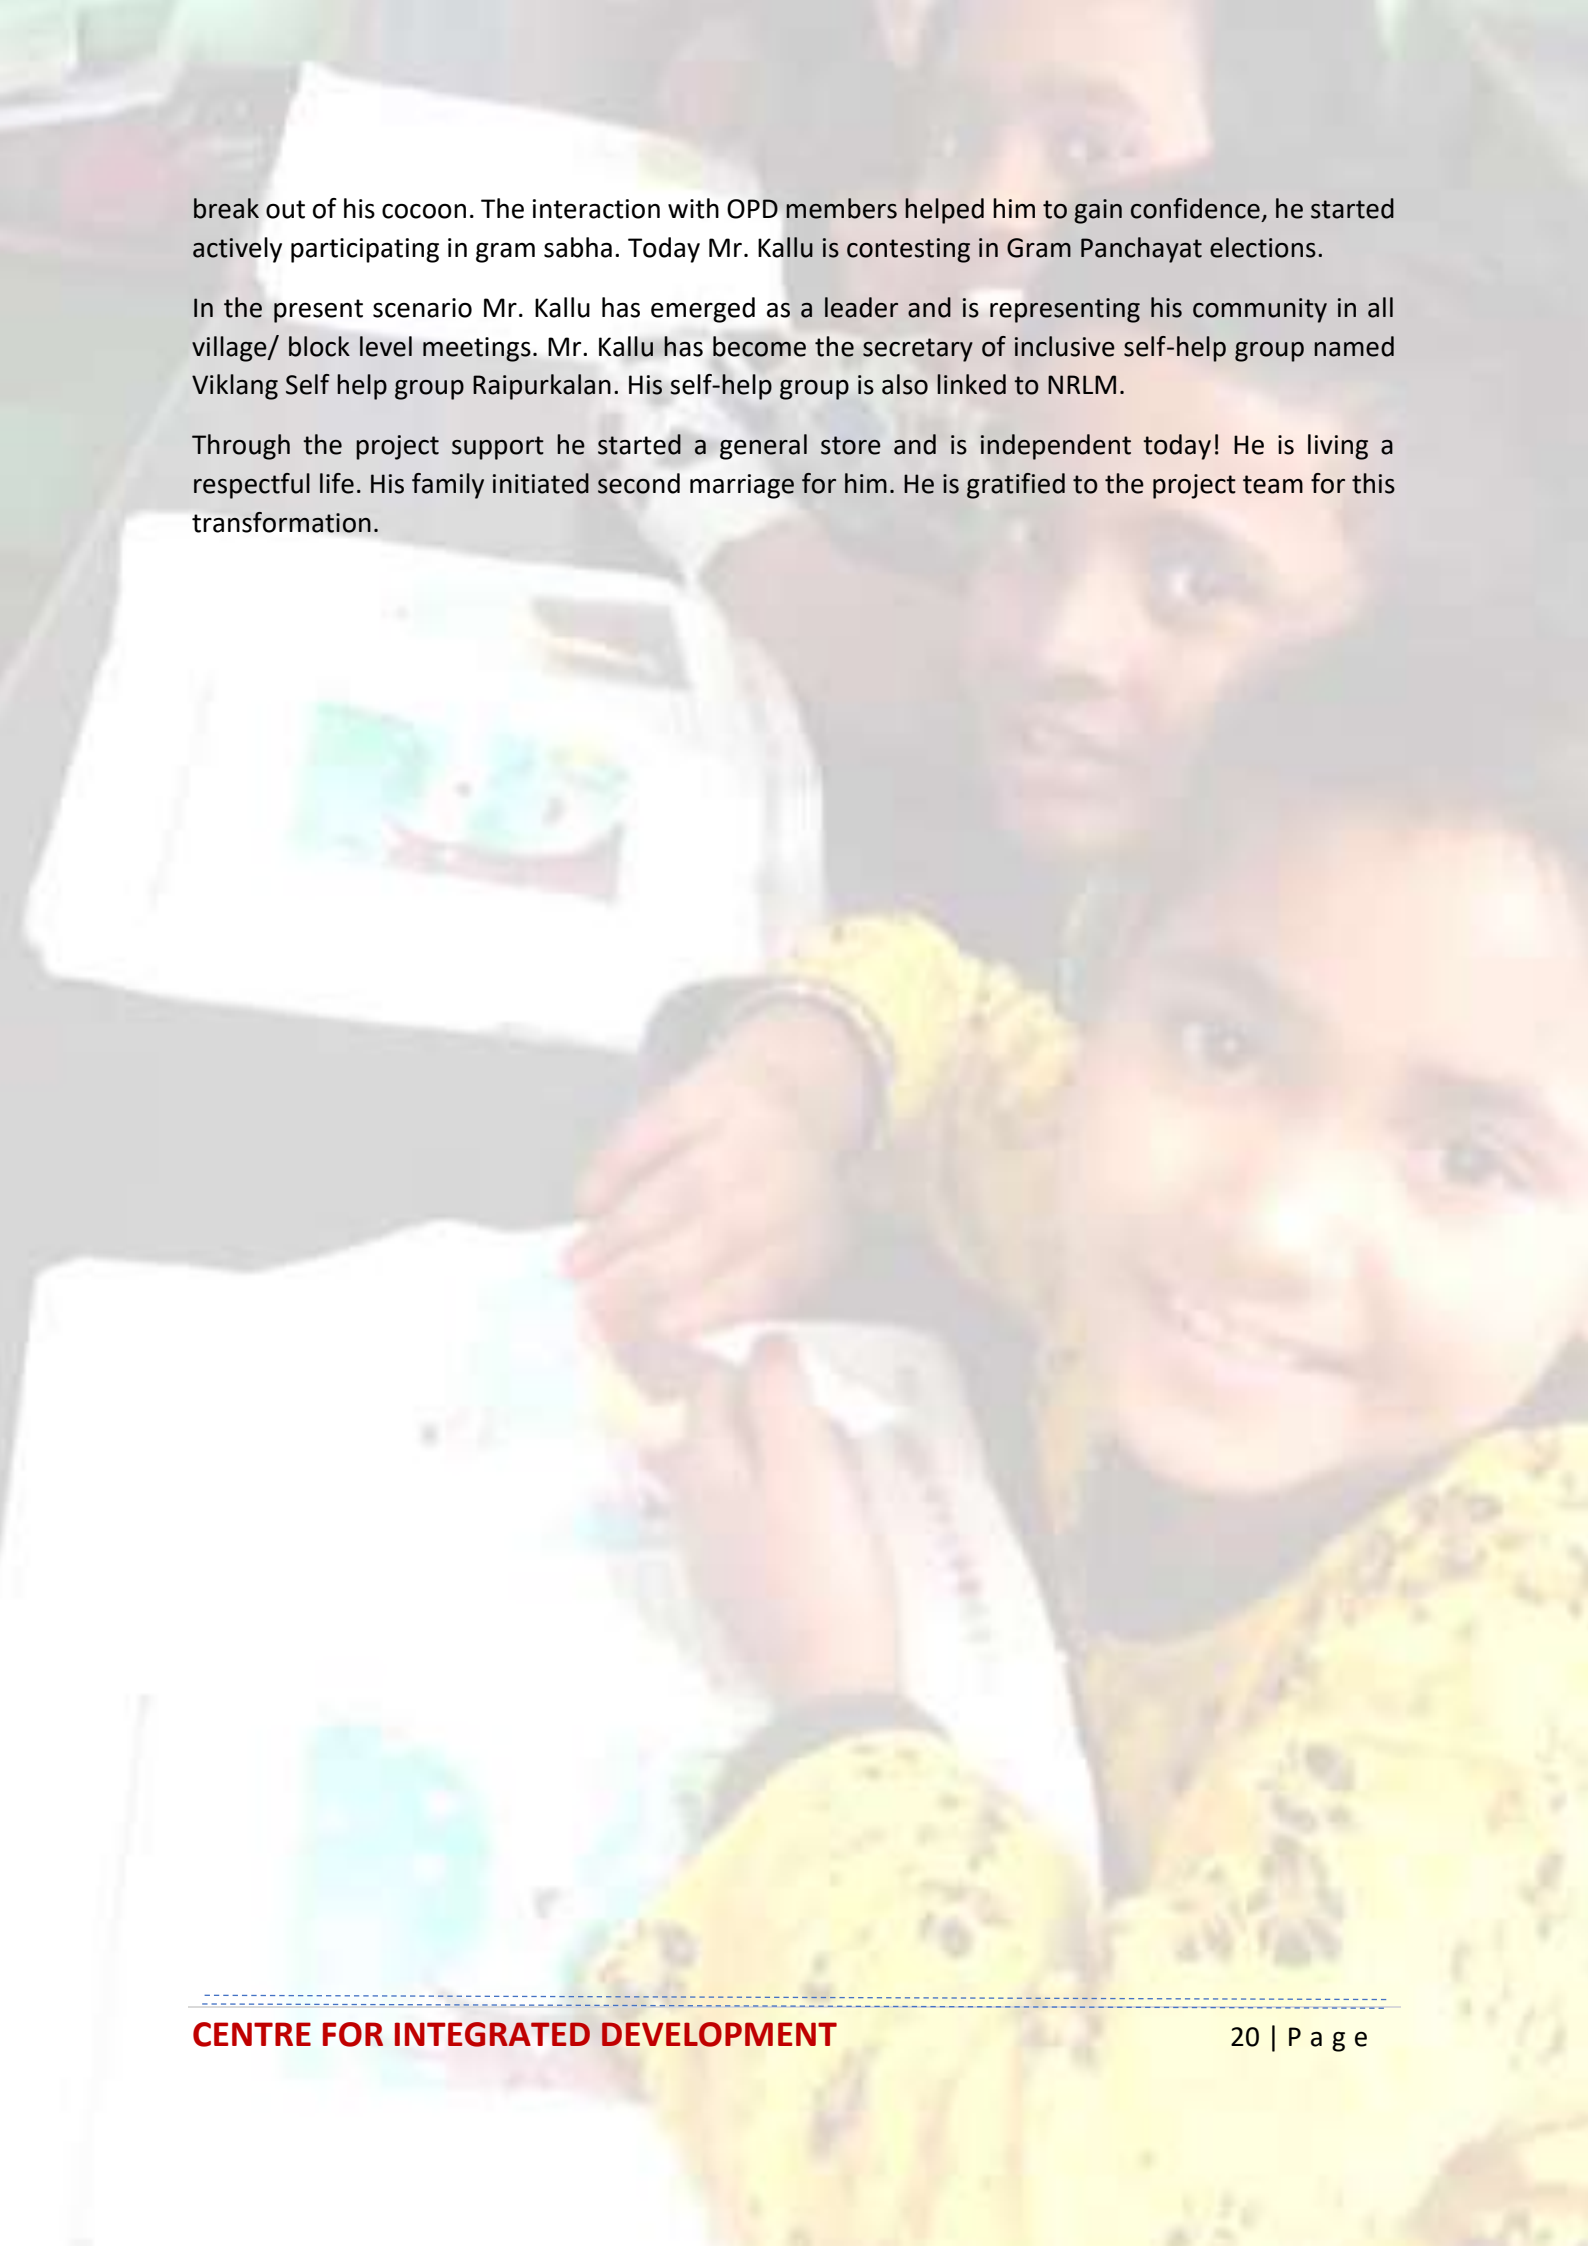

Name of village – Raipur Kala

Name of right holder – Mr. Kallu Adivaasi

Disability – Physical Impairment (Disability% - 75%)

Former status: Mr. Kallu Adivaasi was completely dependent on his family owing to his disability. The family members never realized his feelings and he was confined to the periphery of his room. He was aloof from the mainstream society and never attended any social gatherings. To add to his agony his wife also abandoned him. Life was miserable for Mr. Kallu and he had lost all hopes.

During the baseline survey the project team contacted Mr. Kallu. Initially he was reluctant to meet the project staff, however after regular home visits he eventually started showing interest in the project activities. He became a member of village level organization of persons with disabilities. He received information about his rights and entitlements and with regular interaction with people he started to

break out of his cocoon. The interaction with OPD members helped him to gain confidence, he started actively participating in gram sabha. Today Mr. Kallu is contesting in Gram Panchayat elections.

In the present scenario Mr. Kallu has emerged as a leader and is representing his community in all village/ block level meetings. Mr. Kallu has become the secretary of inclusive self-help group named Viklang Self help group Raipurkalan. His self-help group is also linked to NRLM.

Through the project support he started a general store and is independent today! He is living a respectful life. His family initiated second marriage for him. He is gratified to the project team for this transformation.

Success Story 02

Name of village: Panihaar

Village Panchayat: Panihaar

Name of right holder: Mrs. Sanno Khan

Disability – Physical Impairment
(Disability% - 45%)

Mrs. Sanno was living an ignorant life; she was very weak financially. Owing to the appalling conditions she was not included in the society and was barred from attending any social gatherings. She was considered to be a bad omen for the society.

During the inception program she was contacted by the project staff; this was the first time she felt respected and was motivated to join the program. She was introduced to organization of persons with disabilities and inclusive Self-Help Group. She attended many capacity building workshops and emerged strong with enhanced self-confidence.

Through the project support she enhanced agriculture production and improved her financial status. Today she is the president of inclusive Self-Help Group and board member in inclusive farmer producer company. She is also regularly attending the meetings of Gram Panchayat and is actively participating in all activities of village panchayat.

She is thankful to all the project staff for this life changing experience.

Child Labor Week celebration

8 - 12 June 2022

World day against child labor is celebrated on 12th June every year. This day marks the adoption of the Convention on the Rights of the Child, which was signed by over 100 countries back in 1989.

The International Labor Organization (ILO) launched the World Day Against Child Labor in 2002 to focus attention on the global extent of child labor and the action and efforts needed to eliminate it.

Children around the world are routinely engaged in paid and unpaid forms of work. However, they are classified as child laborers when they are either too young to work or are involved in hazardous activities that may compromise their physical, mental, social or educational development. In the least developed countries, slightly more than one in four children (ages 5 to 17) are engaged in labor that is considered detrimental to their health and development.

2022 Theme: "Universal Social Protection to End Child Labor".

Centre For Integrated Development (CID) celebrated week of World Day against child labor in all 12 Support Education Centers and communities.

The Journey of Neha towards her dream !

Name: Neha Khan

Age: 23

Family members: 11

Address: Shankarpur ,Gwalior

My name is Neha Khan. I live in Shankarpur ,Gwalior. I have 4 brothers and 5 sisters. I am youngest amongst all siblings. My father is daily wage-earner, and my mother works in farm. My parents tried to teach all brothers and sisters, but no one could reach up to class 10th due to poor economic condition of my family. Only I could complete 12th class. Currently I am pursuing BSC final year.

When I was 7 years old, I did not like to study because one day when I went to school, I got beaten by my teacher for not reading Hindi. Thereafter I did not go to school and always played games. My elder brother and sisters were involved in carpet weaving work. One day when I was playing with friends, Madam Anjani from CID came and enquired me whether I go to school. I told her that I do not want to study. Madam counselled me that CID is running Support Education Centre in which children study as well play. Thereafter, I took admission in class 1 and studied up to standard 4. Apart from this I was an active member of BAL Panchayat and participated in activities. Then I took admission in government school and completed the standard 12 in 2019 followed by my admission in BSC in government college.

One day I came to know about vacancy of teacher in SEC Shankarpur. I applied for that post and also contacted to Mr. Mushtaq of CID who was happy to meet me. Then he organized an interview, and I was selected for the post. My family members were happy that I would teach a center where I used to study. My dream of becoming a teacher came true.

Currently I am working as a teacher in Support Education Center Shankarpur, and I am also pursuing DCA. Apart from this I am also developing new module for teaching.

The Journey of Rihana towards her dream

Name: Rihana Khan

Age: 22

Family members: 7

Address: Shankarpur ,Gwalior

My name is Rihana Khan. I live in Shankarpur, Gwalior. I have 2 brothers and 3 sisters. I am the 4th child amongst all the siblings. My father is a driver and whole family is dependent on his income. My parents tried to teach all brothers and sisters, but no one could reach up to class 10th due to repeated failures. Then my father involved all his children who were not interested in studies, to work for financial support to the family.

My sisters were got married. I started schooling from government school but was not able to continue my studies as I was not able to read and write. Studies did not interest me. Teachers at government school did not teach us well. One day when I was playing with friends at home, Madam Anjani from CID came to my home and told my mother that CID teaches those children who are not studying. My mother agreed to admit me as I was not studying. Madam also told my mother that CID is running Support Education Centre in which children study and play as well. Thereafter I took admission in standard 2 and studied up to standard 4. Apart from this I was an active member of BAL Panchayat and participated in activities.

When I was in standard 10, my father asked me not to study any further as he was concerned that I will also fail like my brothers and sisters. **But without my father's permission, my mother admitted me.** When I passed 10th exam and talked about my success, he was happy and helped me to study further. When I was studying in BCOM 1st year, my college was about 10 km distance from home. I had to face problems, but I had a dream which was big. I regularly went to college for achieving my dream. My dream is to become teacher. **I want to teach children and bear my own and college expenses.** After some time, proposals were coming for my marriage. My father married me with the

family who agreed to the fact that I would continue with my studies even after my marriage. Then I got married. Currently I am studying in BCOM 3rd year, and my in-laws are also supporting me for my studies. My dream is to teach children of Support Education Center after completing graduation.

A Note...

Centre for Integrated Development would like to take this opportunity to thank our partners and donors for their strong and consistent support, without which we would not have been able to achieve so much. We would especially like to thank our Board Members for their contribution, particularly when we needed to find solutions to big development challenges. During the year, we worked closely with national and state governments to implement our programs and provided inputs in their policy making process. Without their support and guidance, we would not have been able to reach more than 900000+ people in Madhya Pradesh to make positive changes in their lives. And finally, we would like to thank all members of the CID family, and all our Partners, Donors, Individual Giving, and other stakeholders who continue to support and believe in our work.
